

A group of approximately 15 diverse individuals, including men and women of various ethnicities, are posed together against a vibrant red background. They are all smiling and making hand gestures, such as peace signs and open palms. Many are wearing pink or grey hoodies with a white star logo. In the foreground, a man in a dark blue t-shirt and a grey baseball cap with a star logo is smiling broadly. The overall mood is joyful and celebratory.

REVISITING

Vision

“Inspiring Inclusion”

We envision an inclusive society where disabled children and their families thrive alongside others, fostering empathy, understanding and shared opportunities.

Mission

We aim to transform the lives of all children with disabilities by providing **holistic care**, world-class therapy and **inclusive educational opportunities** ensuring their optimal physical, cognitive and socio-emotional development.

We recognise that families and communities are integral in the inclusion of children with disabilities so we focus on raising awareness, advocacy, training and the **empowerment** of these roleplayers.
